#1 Stock Picker By Barron's & Wall Street Journal says,

**"I Guarantee I'll Make
You \$5,000.00 Extra
Profit Every Week
Trading Stocks."**

Jim Stanton

I know you're skeptical, so I'll prove it to you first.

You don't risk a penny to see for yourself.

First, here are my credentials:

- #1** in *The Wall Street Journal* U.S. Trading Championship by a wide margin
- #1** in *Barron's* stock picking contest with no one else even close
- #1** by *Winner's Circle Magazine* with a 2 year audited return of 400%
- #1** in *Money Magazine* where I helped a first-time investor turn \$5,000 into \$127,000 in just 36 months for a profit of more than 2,400%
- #1** in publicized stock broker contest by wide margin whipping hundreds of others
- #1** on *CNBC Financial News Network* with *Bill Griffith* on stock and bond markets
- 92% OF MY TRADES SHOW A PROFIT** According to Omega Research!

Now I want to use my unique stock-picking system to help YOU ...

**MAKE 24 TIMES YOUR MONEY --
Turn Every \$10,000 You Invest
Into \$240,000.00**

Dear Fellow Investor,

I want to send you my weekly fax. In it, I'll spell out for you exactly which NASDAQ stocks to buy and sell to make profits of at least \$5,000.00 a week if you are trading a \$50,000 account.

Track my recommendations for up to three months. You can do it "on paper" so you don't risk any real money.

See how much profit I make you.

Believe me, if you're not satisfied with your profits for any reason, the matter will be over -- and it won't cost you a penny.

I'm taking all the risk. You have no risk.

I want to do this for you because I know you're shrewd enough to recognize a great opportunity when you see it. You didn't reach the level you're at by sitting back and watching the world pass you by.

Of course, I'm betting that I'll make you *so much money*, you'll anxiously await my fax every week. But I want you to decide that for yourself later -- after you see how much profit my service makes you.

And that's the way I want it. You see, this letter did not come to you by accident. Rather, I specially selected your name from a group of sophisticated investors. Men and women who make large profits off the ever-so-subtle changes in certain stock market prices. Changes that can take place in just a few days, or a few hours, or a few minutes.

You know exactly what I'm talking about because you've scored on big hits like this before. Nothing feels better. Now I'm offering you the chance -- no, the GUARANTEE -- you will cash-in with 10% to 20% profits every single week!

**WHY MY SYSTEM IS PROVEN #1 IN PROFITS ...
AND WHY IT WILL MAKE YOU MUCH RICHER FAST!**

92% of my trades consistently show a profit. Here's why.

First, I focus only on heavily traded NASDAQ 100 technology stocks that "move" fast.

We want quick, big percentage profits in days. Not months or years.

NASDAQ 100 stocks are where the big money and action is. This volatility makes it much easier for us to profit.

I analyze each stock with my unique system. (It took me ten hard years and over \$300,000.00 to develop.) My 13-Factor system scours the market for stocks that will move higher now according to sophisticated chart patterns.

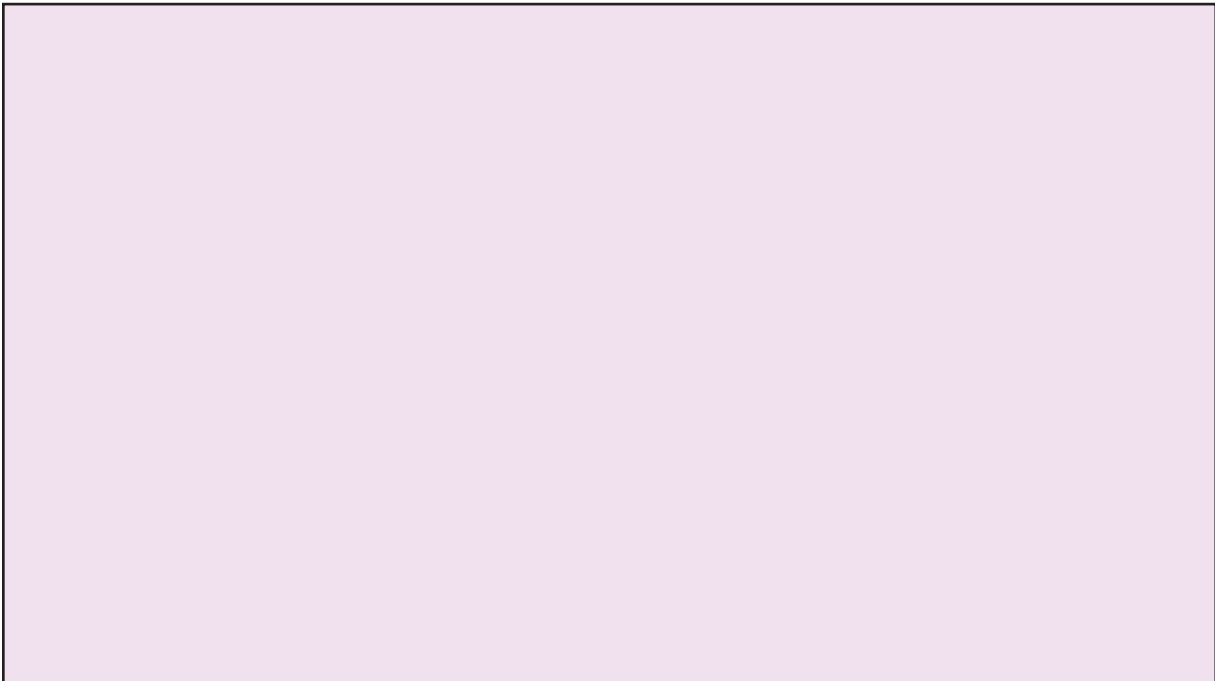

“Jim Stanton knows the NASDAQ market better than anyone alive. His ability to pick winners consistently is downright amazing!” -- Ron Kuzon, Investment Manager Monarch Money Management, New York, NY

My system determines optimum prices at which to buy ... and target prices at which to sell for maximum profits. I will tell you exactly what stocks to buy and sell -- and when. And most importantly ...

... My system will make you 10% to 20% profit on each trade in 5 to 10 days, and be successful 90% of the time.

Believe me, even if you plunked down one million in cash, I wouldn't sell you my system unless I knew I could still use it. It's worth way more than that in future profits!

You will be amazed at the accuracy of my buy & sell prices. Here is an actual performance record from a recent 2-week period of my weekly fax service:

WANT MORE PROOF?

In a recent 5-week test period by a major publisher, I recommended 55 trades. And these were the audited results ...

30 buy recommendations	28 WINNERS	2 losses
15 short sales	10 WINNERS	2 losses, 3 broke-even
10 option trades	10 WINNERS	0 losses

TOTAL PROFITABLE TRADE RATIO: 92%

And let me emphasize -- this 92% winning record is no fluke. Consistently, month in, month out, I have posted comparable wins for my subscribers and myself.

“The man is a stock-picking genius. I’ve never been steered to so many winners, so consistently!” -- D. Owens, Virginia

I put my own money on the line with you ... I follow the same advice I give you each week. I trade with my own money -- and it's a lot. That means we'll risk -- and grow richer --together.

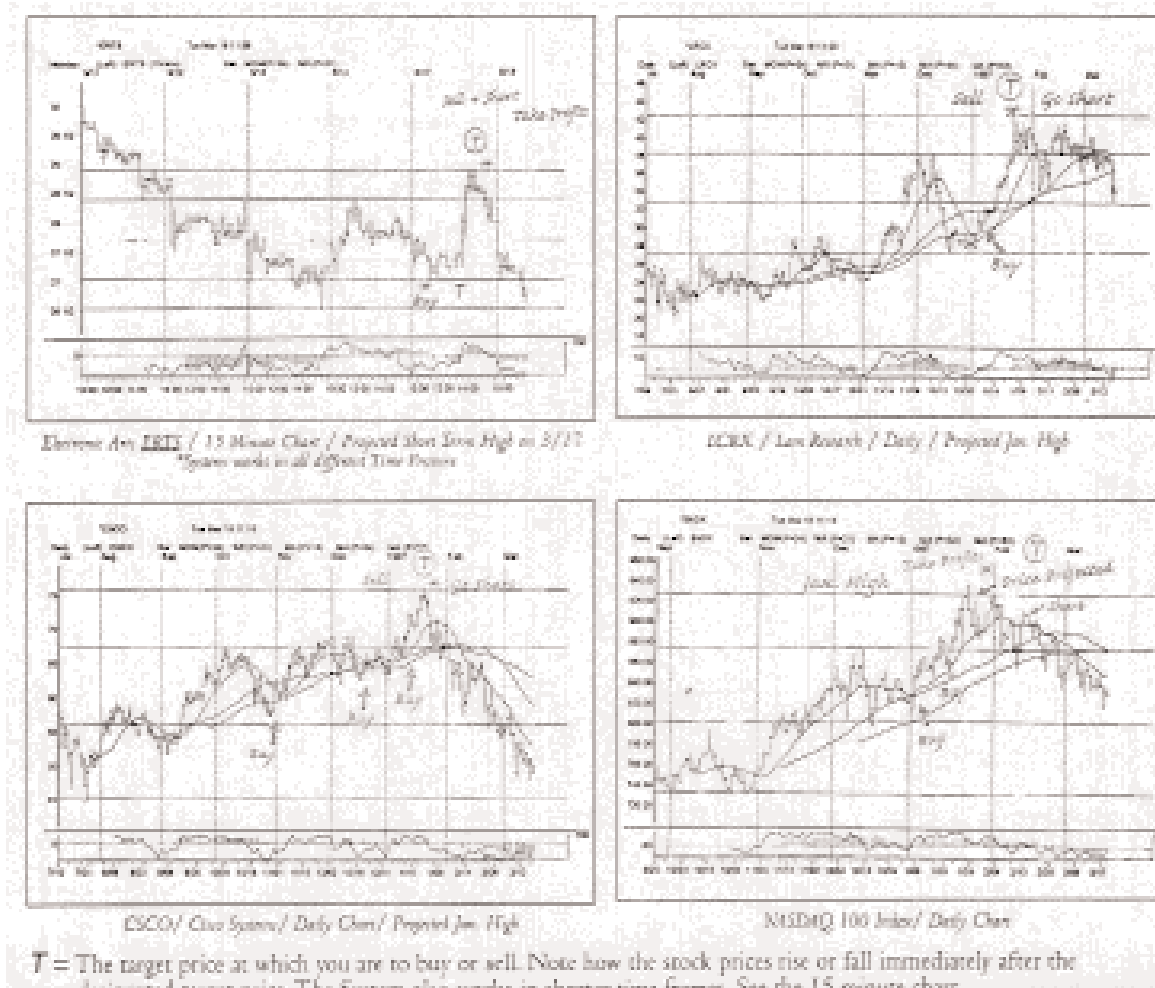

Here's a typical example of how our trading will work.

I bought DSC Corporation (DIGI) at 3 and sold it at 26 .. then bought it back at 40 and sold it at 80 ... then bought it again at 90 and sold it at 120.

This gave us gains of 767%, 100% and 33 1/3% -- all on the same stock!

CAN YOU AFFORD TO BE WITHOUT MY ADVICE?

Here are my actual charts showing you when to buy and sell NASDAQ stocks. Note the incredible pinpoint accuracy of my calls, and how my daily price targets for CSCO, LRCZ and NDX100 warned of a potential top in January. The NASDAQ dropped 15% by mid-March!

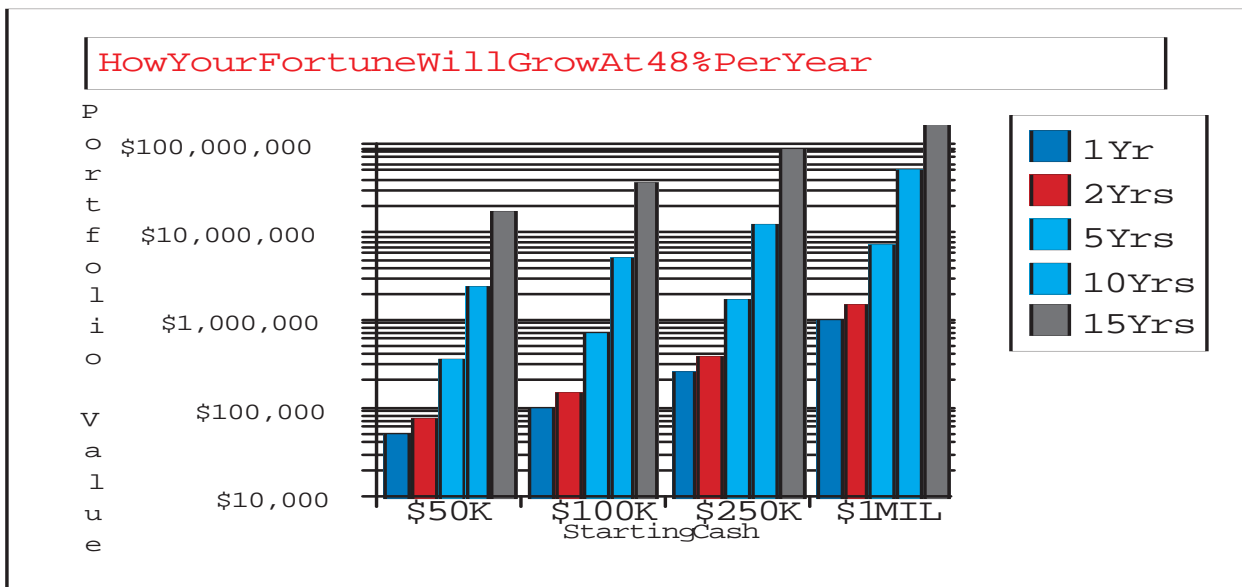

I've just canceled my other three stock market advisory services. Stanton has been averaging over 90% winners. I'd be a fool not to go with him all the way."

-- M. Wilens, Money Manager, Maryland

HOW YOUR INVESTMENT PORTFOLIO WILL SKYROCKET WITH ANNUAL PROFITS OF 48%!

My goal is to make you at least 48% a year on your money after all brokerage costs and spreads. At that rate, the chart below shows what will happen to your investment portfolio:

HERE'S MY NO-RISK OFFER TO YOU AND WHAT YOU'LL RECEIVE ...

You can sample my fax service for 3 months without risking a penny.

If you are not 100% thrilled with the results after three months -- the matter will be over and it won't cost you a penny.

Each week, by Friday at 5 P.M. EST you will receive on your fax ...

- ✓ My FAX ALERT with my specific buy and sell recommendations for the next week. This includes ... market forecasts for the next week ... the stocks and options to buy or sell ... optimum buy price ... sell price and charts designed for clarity and action.
- ✓ All recommendations are good for the next week unless I send you a special fax to the contrary during that week.
- ✓ You may also call my toll-free 800# recording for urgent new opportunities that have appeared for quick profit.

That's it. Nice and simple.

“Jim Stanton has the uncanny ability to predict upward or downward movement of stocks and index options with 94% profitability of his trades. Losses are minimal and dollar gains are very impressive.” -- John Zipp, Financial Publisher

The cost? That's easy to handle, too.

You didn't get this letter by accident. You are a successful person who knows you get what you pay for. While I could easily charge \$5,000.00 or more for my service yearly because it would be a bargain, I only ask \$297 for three months -- a small fraction of the extra money I'll make you.

And remember -- you're not really "spending" a penny to try me out. You'll get your money back in full with no questions asked if you're not 100% satisfied.

Again, what I'm offering you isn't for everybody. It's only for those select few investors who have the ability to use good information to their advantage immediately: Traders like you, who can make tens of thousands of dollars in profit in one afternoon from a \$2 or \$3 movement in NASDAQ stocks.

Look. I know you don't know me yet. But do you think *Barron's*, *The Wall Street Journal*, *Money Magazine* and more could all be wrong about me? Since you risk absolutely nothing, you owe it to yourself -- and your portfolio -- to check me out. Because if I'm right, you'll your profits will be breath-taking.

Here's the bottom line: Three months from now you can be much wealthier, or you can be getting the same results as you are now. You decide.

Sincerely,

Jim Stanton
